

UK and Ireland AM Transmitters 1978 to Present

Frequency Finder

kHz	Area	Station	Broadcaster	kW	Transmitter Site	Grid
Only services transmitting from the UK and Ireland after 23/11/1978, when the AM band was last reorganised are listed. Where in-service dates before 23/11/1978 are given, the frequency was 1 kHz lower prior to 23/11/1978 (except 1548, which was previously 1546) Moved means that the transmitter changed to another site or frequency on the date given. Site moves of less than 2 km are not listed. (from/to ****) means that the transmitter moved from/to the indicated frequency Transmission parameters are the most recent and are EMRP (except for closed BBC Radio 1 and Radio 3 transmitters where TX output is used) (moved to FM) means that this AM service was directly replaced by an FM service. This excludes moving the programming to an existing FM service.						
198	England & Wales	23/11/1978: BBC Radio 4 (Long Wave). (On 200 kHz until 1/2/1988)	Continues	500.000	Droitwich	SO 929 663
